

# EUC-75-24-DIM (24V, 3.1A, 75W)

## Feature

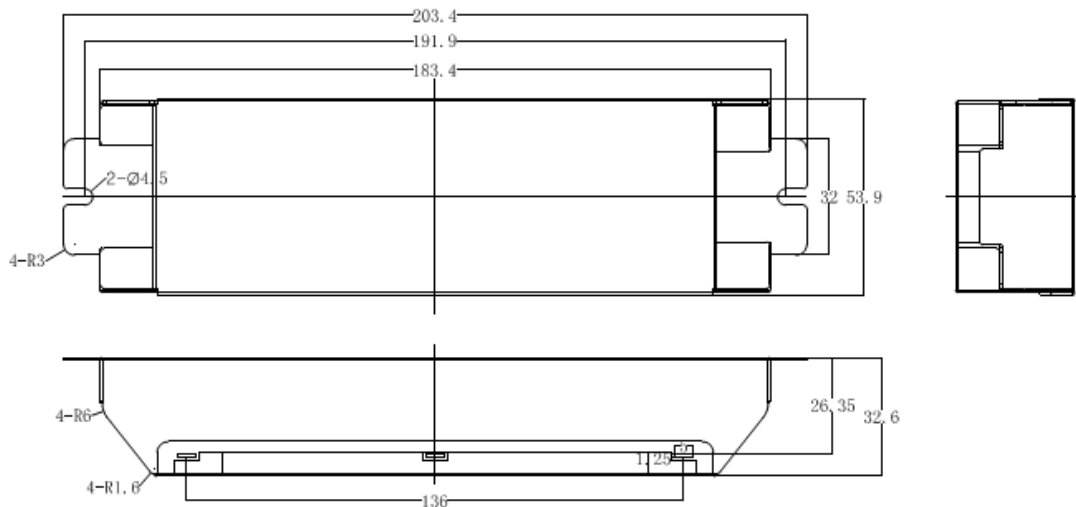

- Single-channel 24VDC constant Voltage output, each channel 3.2A Max.
- Support Leading edge (Triac) and Trailing edge (ELV) Dimmer.
- Dimming range from 40VAC to 240V AC.
- High efficiency: up to 89%.
- Output short circuit protection; over power protection; over temperature protection.

## Technical Parameters

Output Channel	1 Channel
Input Voltage	40-240VAC
Input Frequency	47-63HZ
Dimming voltage range	40VAC ~ 240 VAC
PF	≥0.5(230VAC)
Efficiency	89%
Dimming Mode	Triac/ELV
Output Voltage	24VDC
Output Power	75W
Output Current/Each Channel	3.2A
G.W.(g)	380g
Size	204mm*54mm*33mm(L*W*H)
Working Temperature	-20°C - 50°C

## Dimension

## Wiring diagram
